24/7 Service  
Centre

Employment  
& Payroll

Bank Management  
Teams

NHS Professionals is the market leader in fully managed flexible workers' services. We are now transforming the way we deliver our services to meet the ever-changing needs of the NHS.

Our bespoke offering enables you to pick and choose the elements you need, when you need them.

## What can we offer?

### **National NHS Bank** **Access to NHSP bank staff**

We'll provide you with bank staff when your Trusts' in-house bank is unable to fill shifts. Not only will we charge you on a pay-as-you go basis, we can also help drive down expensive agency bills; our costs are typically 10-20% lower than agency.

### **Bank employment** **Outsource your payroll service**

We'll take responsibility for your bank payroll services, technically employing the bank, so you don't have to. We can typically reduce payroll costs by 8% (and up to 20%).

### **Recruitment and registration** **Saving you time**

We'll employ the bank staff for you, taking control of all your recruitment and registration activity. Our advance technology and processes are designed and built to integrate with your systems saving you time and money on recruitment.

### **Agency Management** **Your Trusted Advisor**

We'll manage your agency supply and work with you to select best-value agencies. Our ability to negotiate on local and national rates can reduce your agency costs.

## Want to know more about our bespoke service?

Give our workforce specialists a call and they can help you decide which elements are likely to work for you.
